Sree Sankara College Kalady

Title of the activity	'Cultivating Knowledge and Harvesting Sustainability': A Vegetable Garden Initiative by Students
Date and Time	14/01/2024
Resource person	
Nature of activity	College
Type of Activity	,
Linkage Activity	
Convener	
Number of participants	0

Report of the activity

In a steadfast commitment to environmental sustainability, the department of biochemistry has taken a pioneering step towards integrating eco-friendly practices within the campus. Initiated by students, the establishment of a vegetable garden has become a focal point of the department's green initiative, showcasing a harmonious blend of academic learning, practical application, and community engagement. The initiative commenced with planning and design, where the students collaborated to outline the garden's layout, choose suitable vegetable varieties, and establish a timeline for implementation. Resources were procured, and a dedicated space on campus was allocated for the garden. Students actively involved in soil preparation, planting, watering, and maintenance. The garden was cultivated using organic methods, minimizing the use of synthetic fertilizers and pesticides. Additionally, composting and waste management strategies were adopted to ensure a minimal environmental footprint.

Outcome of the activity

- Improved understanding of agricultural processes.
- Enhance teamwork and collaboration skills among students
- To foster the commitment of students to sustainable practices and community development.
- Increased awareness of sustainable and organic farming practices.
