

# KREEPA GREEN POWER EXPO

DATE - 07-09 DECEMBER 2023

KREEPA  
POWER

GREEN  
EXPO 2023

was held on 07th to 09th December 2023 at Adlux International Convention Centre, Angamaly, Kochi. Department of Renewable Energy Management got invitation from the expo team to become the part of the great event. The event was an endless opportunities in the Renewable Energy & EV Sector. The strategy behind the expo was to Come, explore and tremendous opportunity to understand the latest Technology products, manufactures, Service providers and to research on the limitless investment opportunities in the renewable energy sector. 12 students from the first year batch got the fortune to become the volunteers of the event. They have also participated in the placement drive conducted by the event coordinators.

**Students at EXPO Stall**

### **Outcome**

The students learned about rooftop solar power systems, electric goods and automobiles, a variety of renewable energy systems, and solar energy storage options thanks to the KREEPA Green Power Expo Kochi 2023. The team's seminar gave the students insight into recent advances in the field of renewable energy.
