

REPORT ON THE FUNCTIONING OF ANTI-RAGGING COMMITTEE  
(Academic Year 2021-22)

The academic year 2021-22, saw the commencement of offline classes only in the month of October 2022. During the online induction ceremony, the students of fresh intake were intimated about the functioning of the anti-ragging cell in the Institution. The objectives behind the creation of such a cell were briefed to the students making them aware of their right to approach the cell if required and to support the fight against the menace of ragging. Further, the members of the teaching faculty in the anti-ragging cell held interactions with the freshers and thereby, it was ensured that the fresh students maintain a healthy and cordial relationship with the senior students.

No ragging related incidents were reported during the said academic year.
